

## Inspiration for journalists

It's often difficult to find inspiration for journalists and they're complaining that their muse doesn't come every day. For these problems I have one decision - the book "100 names".

This book tells about the girl named Kitty. She dreams of becoming a TV presenter. But because of the problems in her life she got despaired and began to pull away from her dream. But one day her friend, who worked as a journalist, died and Kitty has to finish her project. But Kitty doesn't know about the main idea of this project, so she has only the list of 100 names and two weeks to finish her friend's project. To get to know the mystery, Kitty must learn herself better and then her life will change.

I hope this book will be very interesting for you and for journalists it will be an inspiration.

## Report of 22nd July 2015

Just after waking up at 9am. We have had morning exercises. In them, we have combined stretching and traditional games. After the breakfast, we had math classes. In the Ganymede's group, we have continued our lessons on complex numbers.

The other three groups have done some mathematical problems. After lunch we have had some free time. As it was raining, we couldn't have played sports as football or volleyball, but there had been some lessons like Russian, German, Spanish and English, as well as Trubogrannic.

After that, we have played a role game, about the vanishing of a machine and its drawings. Some people achieved their tasks but not all of them.

Then we had dinner. Later we prepared and made some representations about famous scientists, as Marie Curie or Darwin.

At last, some of us had done our candles in our groups, but not all of them.

Jesus?  
???

???  
Really?

## Who is Jesus?

Interview with Jesus ?? - accompanying person came with Spanish guys.

- Hi, Jesus! I want to ask you some questions.
- Yes, of course!
- At first, you are from Spain right? And what city?
- I'm from a little town near Seville, it very small, but last five years I've been living in Sevil because I study.
- Have you ever been the group leader of the camp in Spain?
- Yes, for companion person.
- How many times?
- This is my first time here in the camp in Russia. Last year I was in Seville. So, one here and one in the Spain. Twice.
- It is your first time in Russia?
- Yes, it is my first time in Russia.
- Do you like it?
- Yes! Nature is pretty, I like nature, but huge surprised me. In Saint-Petersburg everything is huge. For example one building – thousand people can live there and for example my town has seven thousand people. Seven buildings is my town! It is strange for me, the highway is very big, a lot of space, so you have to go to one place to another. Lot of time, I think. I usually go walking everywhere, all my life – walking. And in Seville at most – bicycle.
- Also I know, that you're good at math.
- I study math. I finished study math at university. So, I can be a teacher, if I want.
- In the camp you study math?
- No, I don't do anything. For example, today I've been teaching, because two of the teachers are sick. So, they said: «You come tomorrow and do some classes», I said «OK». I'm not a teacher.
- What is your hobbies?
- I like math. I like to go play basketball with the team, to go on the street, it is very different culture there. In the south people are even more sociable and they just sit outside, talking for hours. In this summer, when I come back in the town, I start in the morning meet with my friends to have breakfast with toast with tomato and ham – it is very popular. After that, we aybe go to swimming pool, then have lunch and then go for coffee, than you have dinner, then you finish dinner and then two or three o'clock – you stop and go home and sleep. In summer it is very hot in the morning – 43, 45, 46, for example last week, twelve o'clock in the night was 35 degrees for Celsius. It is hot. Even to sleep.
- OK, that's all. Thank you very much for your interview!

## Steven Universe

Что такое мультфильм Стивен Юниверс? На первый взгляд, это очередная сказка, где выдуманные персонажи сражаются со злом и, конечно же, всегда побеждают. Но постепенно, с каждой серией, сюжет раскрывается и действительно затягивает тебя.

Название Стивен Юниверс можно понимать двояко. Первое значение – это дословный перевод – Вселенная Стивена. Ну а второе значение – имя главного героя. Главный герой, мальчик Стивен Юниверс живет в маленьком уютном городке Бич-сити, на берегу океана. Стивен живет с необычными девушками – воплощениями драгоценных камней-самоцветов. Всего самоцветов трое: спокойная и уверенная в себе Гранат, веселая и безбашенная Аметист, аккуратная и грациозная Жемчуг. Стивен тоже не совсем обычный мальчик. Он – полу-человек полу-самоцвет. Вчетвером Гранат, Жемчуг, Аметист и Стивен образуют команду под названием Кристальные самоцветы. Вместе они сражаются со злом, посещают различные волшебные места, восстанавливают везде порядок и спокойствие.

Позже выясняется, что Гранат, Аметист и Жемчуг не единственные самоцветы во вселенной. Сначала мы встречаем Лазурит, а затем враждебно настроенных Хризолит и Яшму. И в течение мультфильма мы узнаем все больше интересного о самоцветах.

Так же важную часть мультфильма Стивен Юниверс составляет музыка, погружающая в уютную атмосферу пляжного городка.

А чего стоят песни, каждая из которых сделана как маленькое шоу. Или голос Гранат, которую озвучивает певица Estelle.

Мультфильм Стивен Юниверс – шедевр, созданный компанией Cartoon Network, который стоит увидеть каждому!

## Saint-Petersburg day

Today hasn't been an usual day. Today we had to get up earlier than the previous days. After a quick breakfast (today we had cereals) our group took a bus at 10 am. With that bus we travelled to Saint-Petersburg. We arrived at Vasilievsky Island at 12 o'clock and then we walked to the Winter Palace (Hermitage Museum), where we took a boat, on which we could see some sights near Neva River, such as the Peter and Paul Fortress, the Rostral colons or Saint Isaac cathedral. The weather was so cold and we became almost frozen. After that, we went for a walk and we could see the Saviour-on-Blood. Then we ate Russian borsch and we had free time until 5:30 pm. At 6 o'clock we were again at Vasilievsky Island and we took the bus to return to Losevo. We only had to travel 75 km. Our trip took 3 hours. This happened because today it is Friday and people are going to their villages. We arrived at 9 pm and we had dinner. Then we had the disco instead of the Candle meeting. This day was tiring, but very happy.

## Интервью с вожатыми

Всем привет! Меня зовут Аня. Я хочу рассказать о своих вожатых, об их чувствах и эмоциях, которые они испытывают, находясь на смене Формула Единства. Моих вожатых зовут Геля, Юля и Дима. Они очень хорошие, добрые и общительные люди. Я задавала Юле и Диме несколько вопросов и получила очень добрые ответы:

А: Какой раз ты в Формуле Единства?

Д: В третий!

Ю: Я в первый раз.

А: Нравится ли тебе в лагере?

Д: Мне очень нравится! Я рад, что я могу раскрыться, а не сидеть дома за компьютером.

Ю: Мне нравится.

А: Бывают ли у тебя разногласия и недопонимания с участниками лагеря?

Д: Очень часто, но в итоге мы приходим к одному выводу.

Ю: Да, разногласия бывают и с детьми, и с вожатыми. Но мы быстро разрешаем все проблемы.

А: Какие положительные эмоции ты испытываешь при общении с иностранцами?

Д: Мне очень приятно общаться с ребятами из других стран. Я рад, что могу практиковать свой иностранный язык.

Ю: Я испытываю, какие только возможно положительные эмоции.

А: Испытываешь ли ты трудности в общении?

Д: Очень часто бывает так, что мне трудно общаться с людьми, потому что я очень закрытый человек и мне сложно подбирать слова, чтобы выразить свои мысли.

Ю: Трудности только в том, что я забываю какое-то слово, но быстро объясняю его, и иностранцы меня понимают.

А: Что ты чувствуешь, находясь в своём отряде?

Д: Мне кажется у нас самый замечательный отряд, что все очень активные, весёлые, общительные, понимающие друг - друга.

Ю: Я чувствую себя подростком и мне легче общаться со своим отрядом, работать. Я испытываю абсолютное счастье, потому что они помогают мне, и я всегда готова помочь им в трудную минуту.

А: Спасибо за ответы! Ребятам будет интересно узнать побольше о вас.

## Did you Know...?

On 26th of July in 1967 was born English actor, producer, martial artist, and former driver Jason Statham. He was born in Shirebrook, Derbyshire, the son of Eileen, a dancer, and Barry Statham, a street seller and lounge singer.

He is known for his roles in the Guy Ritchie crime films Revolver, Snatch, and Lock, Stock and Two Smoking Barrels. He has also appeared in films such as The Italian Job, The Transporter, Death Race, Crank, The Bank Job, War, and The Expendables 2. He usually performs his own stage combats and stunts, and is noted for being typecast as an antihero.

Happy Birthday, Jason!!!
