## *July 18<sup>th</sup>: First Day at Formulo de Integreco Camp*

Yesterday was a really busy day: mathematicians had their entrance Olympiad during the morning, which lasted three hours and was really exciting for them. You could see them totally concentrated in the problems they had to solve, and speaking enthusiastically to the teachers as they explained their solutions. Many of them did it very well, and occupied the first places when the results were published.

Journalism students had their first classes, in which their teachers taught them about the objective and importance of Journalism, and told them what they were supposed to do during the camp. They also started working on their articles for the newspaper.

Informatics students were taught how to perform several tasks on the computer, and many of them say they found it really interesting.

During the afternoon, all the students gathered in the Big Hall, where they were divided into 5 groups and then, they met their group leaders and a lot of new friends. After that, they participated in a series of activities called the Path of

Trust. After that, each group prepared a performance for the Festival, and then showed it on stage in front of the rest of the students.

Finally, every group got together in their rooms and discussed about the day around a candle. They talked about what they liked and disliked about the Path of Trust and the rest of the camp activities. It was really good, despite the fact that we don't have much free time, but we think that in this camp we will spend 15 unforgettable days.

## *¡El monstruo peligroso!*

¡Atención por favor! Tenemos que tener cuidado. En nuestro campamento apareció un monstruo peligroso.

Muchos niños han notado, que en la nevera la comida empezó a desaparecer. ¿Pensáis, que otros niños roban la comida? ¡No! Tenemos el monstruo en nuestra nevera. Se despierta a las tres de la noche, cuando todos los niños están dormido. Se despierta y empieza a comer todo, que hay dentro de él. ¿Qué vamos a hacer? Porque cuando se termina la comida en la nevera, el monstruo va a buscarla en los habitaciones de los niños. ¿Podéis imaginar este? ¡Qué horror! Tenemos que hacer algo. Si tenéis algunas ideas, es importante que los enviéis a nuestro periódico. Gracias por la atención.

## *Mirada al interior de los lugares de trabajo de nuestra guardia*

Estoy en primer piso de nuestro campamento en guardia cubiculo de vidrio. Aquí y en la mesa cerca de nuestra salida deben sentarse guardias de seguridad. Ahora este hombre con cara tierna, en la edad adulta, mira las imágenes de las cámaras de vigilancia. Tengo permiso para inspeccionar su área de trabajo. Pequeña, parece que un poco cerca habitación es muy acogedora. Hay un calentador, una gran silla comoda con vieja manta roja. Sobre mesa están muchos papeles. Este espacio iluminado sólo por una pequeña lámpara soviética. Cerca de ella se sienta paja domovenok, para buena suerte. Pero, yo pienso que el entretiene guardia en las noches solitarias. Este lugar es acogedor, pero solitario. Este solitud sienta físicamente, como frío que se ejecuta en la parte posterior. El calendario que está de pared es muy viejo y relata que en esta habitación mucha gente se sentaba a pedir días. Veo el medidor de electricidad y un montón de claves. Nunca pensaba que la guardia tiene tantos casos. Modestamente en la esquina se encuentra una tetera y cafetera. Cuando me voy de aquí quiero salir de esta habitación un poco de alegría para la guardia. Sobre la mesa que está cerca de salida hay ordenador(a menudo es el único entretenimiento de guardias. Y también hay monitor, lo que demuestra que donde hay) Digo a nuestra guardia "gracias" y veo que su humor ha sido mejor, porque se siente encaja. Y de mi corazón se hizo más cálido.

## *It is interesting!*

Today, 22 July, Mireille Mathieu was born. This great French singer was born in 1946 in Avignon, France. Earlier she was very popular in Russia, so she was awarded the Order of Friendship here.

## Purple potatoes

There are many children from different countries, and communicating, we every day notice many differences in our culture, food, manners. Sometimes such situations are very funny, so we decided to collect the most interesting stories.

Most often we meet all together in the canteen. Tastes of people in the food are very different, and our foreign friends sometimes cannot understand what kind of food in front of them. Thus, for the Spaniard Diego from the third group presence on the table of such dishes as borsch and salad of beetroot was a great discovery. As we know, because of the availability of beetroot in salad all vegetables painted in purple color, so when Diego had asked the ingredients and someone said that there was potatoes in salad, his comrades had to try to explain that on the territory of Russia isn't growing purple potatoes. Meanwhile, Russian children found out that the Spaniards do not cultivate and eat buckwheat.

In addition, almost all the guys are showing a great desire to study other languages and media gladly contribute to this. Therefore, the Frenchman named Jean-Pierre from the fifth group cute asks "*na angliiskom pojalusta*" when he does not understand the other's speech. Foreigners from other groups also got to know words like "*kapusta*", "*molodets*", "*ia milashka*" and "magic" polite words.

These stories we got firsthand from representatives of the groups in the edition of the newspaper. If you want to share some fun event that happened to you, please don't hesitate to write it and we would publish your articles with great pleasure in our editions, which in English!

## *No tengas miedo!*

Cada día en nuestro campamento es un poco difícil, porque aquí hay muchos chicos de diferentes países (Rusia, Rumania, Francia, España, Ecuador). Y porque nuestro campamento está en Rusia, todos los extranjeros cada día deben hablar en otras lenguas. Todos vosotros sois cansados y poco tímidos cuando tienen que comunicarse con chicos de otros países. Es importante que todos otros chicos también sienten estas cosas. Y si todos nosotros probamos comunicarse más y sin miedo, podemos encontrar muchos amigos. Yo sé que todos aquí quieren tener nuevos amigos. Creo que podemos hacerlo!

## *Second day in the camp*

As we spent a whole day in the camp, we all got used a little to our leaders, to our staff, to our roommates and classmates.

In the morning, after breakfast, we all went to classes. I was in math, and I started my day with some problems, which were interesting. After, we had to make some geometric. Body using fishingline, earsticks and scissors.

After lunch, I joined my group and we had a lot of fun. We stood in a circle, took our hands and we mixed as there was no way to get out.

Another funny thing was how we got to stand one on each other, in a circle, using just our legs.

But the swaggiest thing in the day was our team. Our name was SWAG, which has a lot of meanings. One of them is stolen things, so Pasha stole George. Another meaning is Stuff We All Get, so most of the team was on the stage shaking toothbrushes. But the meaning we all know is swagger, so Sofia, Jorge and I had a lot of SwaG on the scene.

In the evening, at the candle, we wrote our name on a piece of paper and put it in a cap and mixed it. Everybody got one of the pieces and we passed to each other a ball of string. In the end, we cut the strings and everybody got a bracelet made from string.

This was our second day in the camp, and we all loved it.

## *Walking around the Peterhof*

Today we had an amazing trip to Peterhof. We arrived there at about 16:00, the weather was sunny and just nice. There were a lot of people making photos and relaxing in the park. Golden statues of fountains were sparkling very beautiful. We were walking all together and having a lot of fun. We have visited famous Peterhof's "joke fountains" and got wet after them. Lots of family couples came there with children. Couples were glazing on a bay while children were playing and splashing on each other in shallow water. Some couples even get married there. We met such couple, they looked happy?

**Group "Broccoli"**

## *Five countries*

We are preparing the Traditional Festival. Our group (20 Fresas) will present the traditions and the habits of Russia. We made a TV show called "Our Russia" which is a quiz about Russia, which prize is an amount of 1000000 rubles. The questions were about their traditional food, traditional musical instrument, national festivals and their love for nature. The festival taught us about five countries (Russia, Spain, France, Romania and Ecuador) because every country have presented his culture using interesting videos and performances.
