

1. A: Hi, Liza!

B: Hey.

A: Do you want to grab at dinner time?

B: Like a date

A: Yeah, why not?

B: Sure, when?

A: I don't know, maybe this Wednesday?

B: I can see you tomorrow.

A: Great. I will message you later.

B: OK. Bye.

The best place I've ever been

I haven't been in ~~many~~ many different countries in my life so I don't have many places to describe. But one I will never forget.

When I was a child my mom used to take me to Israel for all summer months every year. At one of those times we lived in Jerusalem. I was a smart kid so one day we went to a science museum that was located not far from the place where we lived. I thought it would be really boring as always but I was so wrong! When we went there I discovered that there you could touch everything and even do some experiments. Also it was really big. It had like 4 or 5 floors. There were a lot of sections and each section was about something different. There you could find something about almost everything. I learnt there very much new information about space, medicine, optical illusions, machines, history of Earth, animal world and even some physical things about water and magnets. When we came home after that I was so excited!

Then, when I grew up a little bit I wanted to go there again but we stopped going to Israel when I gone to school. But I am really thankful to my mom that she took me to this museum and I think that it is the best place I've ever been to.
